-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Applicants Arguments/Amendments

Applicants Arguments/Amendments filed on 10/7/2008 have been entered and made of record.

Applicants arguments with respect to the rejections Under 35 U.S.C. 102 have been fully considered but are moot in view of new grounds of rejection.

Rejections Under 35 U.S.C. 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ogata et al
“Dynamic range compression based on illumination compensation” *IEEE Trans. on Consumer Electronics* Vol. 47 pp 548-558 August 2001.

Re claim 1 Tham A computer program for processing a color image, said computer program being embodied in a computer readable medium comprising: code to receive an image to receive the color image image (page 282 first column last paragraph); code for retinex type procession comprising for cascaded recursive filtering (page 282 first column last paragraph-page 283 first column first paragraph) wherein the code for cascaded recursive filtering comprises code for infinite impulse

Art Unit: 2624

response filtering (page 282 first column last paragraph-page 283 first column first paragraph), code for correcting pixels of the input image according to corresponding pixel values in the local statistics processor (page 283 first column Results); and code for to transform the corrected pixels into an output signal that is indexed to represent an intensity of a particular position in the color image (page 283 first column Results).

Allowable Subject Matter

Claims 2-7 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 10-14 and 16-24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose the equation of claim 2, nor the equation of claim 10, nor the equation of claim 16.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
